

## MEMORANDUM

**To:** Sasha Luftig, Lane Transit District  
Lynda Wannamaker, Wannamaker Consulting

**From:** Andrew Martin, Lane Transit District

**Date:** 05/03/2018

**Subject:** Update to Employment data

---

I used the LCOG 2016 data and pulled the top 10 employers within .25 and .5 miles of each corridor. Below is a table with the results.

Please note, it is not clear how the top employers were calculated before. In the front matter of the chapters, some of the corridors have data that is close to what I have (and what I had for the 2014 LCOG employment data). Some of the corridors use the information from Socio/EJ TR for which of the top 10 employers in the region are within the API.

I propose we update each corridor front matter, and I think the socio/EJ sections, to reflect the most up to date information on employers in the corridor.
